

ANNUAL REPORT  
OF  
THE CONGRESSIONAL PRINTER,  
SHOWING  
*The condition of the Public Printing, Binding, &c.*

---

DECEMBER 5, 1870.—Ordered to lie on the table and be printed.

---

OFFICE OF THE CONGRESSIONAL PRINTER,  
*Washington, December 5, 1870.*

SIR: I have the honor to transmit the eighteenth annual report of this office, in order that it may be laid before the Senate.

Very respectfully, your obedient servant,

A. M. CLAPP,  
*Congressional Printer.*

Hon. SCHUYLER COLFAX,  
*President of the Senate.*

---

OFFICE OF THE CONGRESSIONAL PRINTER,  
*Washington, November 30, 1870.*

*To the Senate and House of Representatives:*

As a duty under the provisions of law, I have the honor to submit the annual report of this office, showing "the exact condition of the public printing, binding, and engraving, the amount and cost of such printing, binding, and engraving, the amount of paper purchased for the same, and such further information as may be within his [my] knowledge in regard to all matters connected therewith." Also, a statement showing "the number of hands employed, and the length of time each has been employed." The tabular statements accompanying this report are made up for the year ending on the 30th of September, 1870, and are as follows:

- No. 1. Showing the documents printed by authority of law, or by order of either House of Congress, the cost of printing and binding them, and the manner in which they were distributed.
- No. 2. Showing the cost of the printing and binding ordered by the Executive and Judicial Departments of the Government.
- No. 3. Showing the disbursements on account of the public printing.
- No. 4. Showing the disbursements on account of paper for the public printing.
- No. 5. Showing the disbursements on account of the public binding.
- No. 6. Showing the disbursements on account of lithographing and engraving for the Senate and House of Representatives, and for copies in *fac-simile* of maps, plats, diagrams, &c., for the use of the Supreme Court of the United States.

- No. 7. Showing the estimated cost of work unfinished on the 30th of September, 1870.  
 No. 8. Comparative aggregate statement showing the earnings and disbursements for the year ending September 30, 1870.  
 No. 9. Showing the number of hands employed, the length of time each was employed, and the amount earned by each, for the year ending September 30, 1870.

#### COST OF THE PUBLIC PRINTING AND BINDING.

Statements No. 1 and No. 2 will show the *approximate* cost of the public printing and binding for each Department of the Government during the year ending on the 30th of September, 1870, as it appears on the books of this office. The Statement No. 1, exhibiting the cost of the printing, binding, and lithographing and engraving for Congress, is given very much in detail, with the view of showing the cost, as nearly as is practicable, of each of the annual reports and other public documents which were printed in excess of the usual number, (1,550 copies, and 50 copies for the use of the Librarian of Congress,) under a resolution of Congress, and the manner in which they were authorized to be distributed. The *actual* disbursements of the office, as detailed in Statements Nos. 3, 4, 5, and 6, were as follows:

For the public printing.....	\$632,690 82
For paper for the public printing.....	418,974 21
For the public binding.....	477,603 74
For lithographing and engraving for Congress.....	64,929 21
For mapping for the Supreme Court of the United States.....	1,473 50
For salaries, &c., in the office of the Congressional Printer.....	12,514 00

By reference to Statement No. 1 it will be seen that a large number of the public documents ordered to be printed, either by law, by order of the Senate, or the House of Representatives, were for distribution by the Executive Departments and Bureaus.

The amount realized during the year from the sale of paper, paper shavings, documents, &c., is \$32,838 13, which has been deposited in the treasury of the United States, as required by law.

The following table exhibits the disbursements of this office, under their respective headings, during the years ending September 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, and 1870, viz:

Year.	Office of the Superintendent.	Public printing.	Paper for the public printing.	Lithographing and engraving.	Public binding.	Mapping for the United States Supreme Court.	Total.
1863....	\$13,210 97	\$285,660 80	\$830,802 06	\$64,126 38	\$223,945 80	.....	\$1,417,746 01
1864....	14,148 87	328,249 34	713,481 16	75,391 79	302,947 19	\$9,415 85	1,443,634 20
1865....	14,869 54	439,856 14	1,285,959 51	96,907 04	387,228 09	2,279 00	2,227,099 32
1866....	13,545 10	400,541 00	896,929 71	112,272 05	445,009 57	1,081 92	1,869,379 35
1867....	13,769 43	452,998 22	635,106 09	108,624 75	386,203 98	2,515 92	1,599,218 39
1868....	13,941 98	454,502 56	385,440 97	105,356 77	346,723 82	3,102 75	1,309,068 85
1869....	16,596 20	559,218 56	399,798 51	145,370 51	385,219 41	1,037 50	1,507,240 69
1870....	14,188 44	632,690 82	418,974 21	64,929 21	477,603 74	1,473 50	1,609,859 92

## DISTRIBUTION OF THE PUBLIC DOCUMENTS.

Inquiry is frequently made as to the manner in which the usual or regular number (1,600) of executive and miscellaneous documents and reports of committees are distributed; as also the bills and joint resolutions, of which 750 copies are printed. This information is given in the following statement :

Where delivered.	Senate documents and reports.	House documents and reports.	Senate bills and joint resolutions.	House bills and joint resolutions.
Document room of the House .....	265	265	265	265
Office of the Clerk of the House .....	20	149	20	308
Sergeant-at-arms of the Senate .....	162	94	230	92
Office of the Secretary of the Senate .....	6	6	10	8
Folding room of the Senate .....	190	-----	170	-----
State Department .....	5	5	-----	10
Reserved for binding .....	902	1,031	-----	-----
For Librarian .....	50	50	50	50
Total numbers printed .....	1,600	1,600	745	733

The reserved documents are bound in volumes of appropriate size, (in sheep and calf,) and are distributed as follows :

Where delivered.	Senate docu- ments.	House docu- ments.
Senate document room .....	106	106
House document room .....	263	361
Senate folding room .....	43	-----
Department of State .....	60	60
Department of the Interior .....	420	470
Library of Congress .....	50	50
Library of the House of Representatives .....	7	30
Library of the Court of Claims .....	-----	2
Congressional Printer .....	1	-----
Total reserve .....	950	1,079

Such number of *extra* copies of the public documents are printed as are authorized by law, or may be directed by the special order of the Senate and House of Representatives; and these are distributed in the manner directed by law or by the House ordering them.

## PAPER FOR PRINTING.

The fourth section of the act of July 27, 1866, gives to the Joint Committee on Printing the exclusive control of contracting for paper for the public printing, and of "fixing a standard of paper for the different

descriptions of congressional and executive printing." Under the direction of the committee contracts were entered into for supplying any required quantities of the various kinds for the year ending on the 31st December, 1870, with the following persons :

CLASS 1.—*Fine uncalendered printing paper, 24 by 38 inches, 45 pounds per ream of 500 sheets:*

William A. Mullen and H. B. Parker, Philadelphia, 2,000 reams, at 13.20 cents per pound, and 5,000 reams, at 14.20 cents per pound.

William W. Harding, Philadelphia, 2,000 reams, at 14.39 cents per pound.

Charles Magarge & Co., Philadelphia, 5,000 reams, at 15.20 cents per pound.

William J. Bryan, New York, 16,000 reams, at 15.65 cents per pound.

CLASS 2.—*Fine calendered printing:*

William J. Bryan, New York, 16,500 reams, at 16.88 cents per pound.

CLASS 3.—*Superfine printing paper, hard-sized and supercalendered, 24 by 32 inches, 45 pounds per ream of 500 sheets:*

Charles Magarge & Co., Philadelphia, 1,600 reams, at 17.30 cents per pound.

CLASS 4.—*Map paper:*

Campbell, Hall & Co., New York, 1,000 reams, at 19 cents per pound.

CLASS 5.—*Writing papers:*

Campbell, Hall & Co., New York, 24,500 reams, at 22 cents per pound.

CLASS 6.—*Colored writing papers:*

Wheelwright, Mudge & Co., Baltimore, 200 reams cap, 14 by 17 inches, laid, at 28.50 cents per pound, and 2,400 reams, the remainder of the class, at 23.40 cents per pound.

CLASS 7.—*Paper for post office blanks:*

William H. Hoffman, Baltimore, 1,000 reams, 20 by 36 inches, 42 pounds ; 800 reams, 25 by 36 inches, 52 pounds ; 800 reams, 26 by 32 inches ; 500 reams, 18 by 29 inches, 30 pounds to the ream, one-half of each weight in the class at 15.39 cents per pound, and the other half at 15.49 cents per pound<sup>2</sup>.

CLASS 8.—*Sized and calendered tinted papers:*

S. D. Warren & Co., Boston, at 17.90 cents per pound.

Statement No. 4, appended to this report, exhibits the exact quantity of each kind of paper purchased during the year ending on the 30th of September, 1870, and the cost per ream. The aggregate amount expended was \$418,974 21. There remained on hand at the end of the year papers of various kinds, as will be seen by reference to the same statement, amounting in value to \$108,955 35.

The papers furnished under the contracts for 1870 cost, on the average, about the same as those of the preceding year. The standard quality, however, has been greatly improved, so that really there is a fair percentage in favor of the purchases of 1870. There has been much less difficulty with the contractors than during the previous year, in keeping the papers up to the standard in point of quality. This arises in a great degree from the wise discretion exercised by the Joint Committee on Printing, in awarding the contracts to honorable and responsible parties.

LITHOGRAPHING AND ENGRAVING FOR CONGRESSIONAL DOCUMENTS.

The aggregate amount paid for this character of work was \$64,929 21, the details of which will be found in Statement No. 6.]

## MAPPING FOR THE SUPREME COURT OF THE UNITED STATES.

Some of the records of the Supreme Court of the United States which are ordered to be printed are accompanied by maps, plats, diagrams, &c., and a small number of copies in *fac-simile*, on tracing linen, are required for the use of the court. These, for the last year, cost the sum of \$1,473 50.

## THE PUBLIC BINDING.

The amount expended on account of the public binding during the year ending on the 30th of September, 1870, was \$477,603 74, the details of which will be found in Statement No. 5. The value of the materials on hand at the end of the year was \$52,156 38.

## CONDITION OF THE PUBLIC PRINTING AND BINDING.

Attached to Statement No. 1 will be found a list of the documents, &c., unfinished on the 30th of September, 1870, the end of the year for which the statistical portion of this report is made up.

## DEPARTMENT PRINTING.

## OFFICE OF THE SECRETARY OF THE TREASURY.

The following comparative statement of printing and binding, done for the office of the Secretary of the Treasury for the years ending September 30, 1869 and 1870, will show the increase of printing for that office alone, to say nothing of the bureaus relating to it, which will be referred to hereafter:

Year.	Number of blanks.	Number of bl'k books.	Cost of printing.	Cost of binding.	Total cost.
1870 .....	1,402,600	1,630	\$27,031 07	\$23,446 22	\$50,477 29
1869 .....	680,000	221	12,578 28	9,551 07	22,129 35
Excess of 1870 over 1869 .....	722,600	1,409	14,452 79	13,895 15	28,347 94

## CUSTOM-HOUSE AND POST OFFICE.

The printing and binding for all the custom-houses of the United States has been transferred by law to the Government Printing Office. This transfer took place in July 1869, and involves a large amount of work that was formerly done at private printing establishments throughout the country. The following exhibit, taken from the books of this office, shows the rapid increase of this class of printing and binding:

Year.	Number of blanks printed.
From September 30, 1869, to September 30, 1870.....	4,917,216
From September 30, 1868, to September 30, 1869.....	2,687,920
Excess in favor of 1870 .....	2,229,296

*Blank books printed and bound.*

Year.	Number.
From September 30, 1869, to September 30, 1870 .....	9, 927
From September 30, 1868, to September 30, 1869 .....	3, 116
Excess in favor of 1870.....	6, 811

It has been my purpose to do all the printing and binding required for the use of the several Departments of the Government with promptness, and in a manner and style satisfactory to them. The large increase taxes every resource of the printing office, and far exceeds the facilities of the bindery. I beg leave to present the following voluntary testimonials, to show how far I have succeeded in satisfying the customs officials of the country as to the character of the work:

TREASURY DEPARTMENT,  
OFFICE OF COMMISSIONER OF CUSTOMS,

November 9, 1869.

SIR: I cannot refrain from expressing to you how much I am gratified at the material and workmanship of the books and blanks which have been printed and bound at the Government Printing Office under your superintendence. I take pleasure in saying that these books are very far superior, both in material and workmanship, to any of the kind I have ever seen in any custom-house, and incomparably superior to the general average of the books and blanks used at the different custom-houses of the United States. I take pleasure, also, in saying that collectors of customs, naval officers, surveyors, &c., are much pleased with the material sent them, and so express themselves very emphatically. In short, the work you have done reflects credit upon both yourself and the Department, while it has cost much less than inferior work and materials have heretofore cost the Government.

With great respect, your obedient servant,

N. SARGENT, *Commissioner.*

A. M. CLAPP, Esq.,

*Superintendent Public Printing, Washington.*

WASHINGTON, D. C., October 29, 1870.

MY DEAR SIR : I have just returned from an official visit to the custom-houses at Suspension Bridge, Oswego, Ogdensburg, Burlington, Boston, and New York, and I think it is due to you to state that the books and blanks from your office give unqualified satisfaction. While the officials would like to purchase their own books, they all pronounce the articles received far superior to any they have ever purchased in their respective cities.

Very respectfully yours,

A. L. STURTEVANT,

*Clerk in charge of Printing, Treasury Department.*

A. M. CLAPP, Esq.,

*Congressional Printer.*

#### REGISTER OF TREASURY.

The catalogue of books and blanks for this Bureau comprises thirty-eight different kinds of blank books, and fifty-three different varieties of blanks. The following table shows the comparative number of the

blanks and books done for this Bureau for the years ending September 30, 1869 and 1870:

Year.	Blank books.	Blanks.	Cost of printing, paper, &c.	Cost of binding.	Total.
1870.....	3,694	350,850	\$15,452 44	\$33,373 07	\$48,825 51
1869.....	1,007	225,290	4,495 32	7,988 15	12,483 47
Excess in 1870.....	2,687	125,560	10,957 12	25,384 92	36,342 04

This class of printing and binding had been done, prior to 1868, in private offices.

#### LIGHT-HOUSE BOARD.

*Comparative statement of printing and binding for the years ending September 30, 1869 and 1870.*

Year.	Cost of printing.	Cost of paper.	Cost of binding.	Total.
1870.....	\$5,084 70	\$2,150 16	\$4,755 48	\$11,990 34
1869.....	1,305 39	620 23	440 66	2,366 28
Excess in 1870.....	3,779 31	1,529 93	4,314 82	9,624 06

#### BUREAU OF STATISTICS.

Year.	Cost of printing.	Cost of paper.	Cost of binding.	Total.
1870.....	\$16,582 11	\$4,283 06	\$853 83	\$21,719 00
1869.....	7,487 29	1,297 53	905 87	9,690 69
Excess in 1870.....	9,094 82	2,985 53	-----	12,028 31

#### INTERIOR DEPARTMENT—CENSUS BUREAU.

Year.	Cost of printing.	Cost of paper.	Cost of binding.	Total.
1870.....	\$14,208 47	\$16,614 11	\$4,343 21	\$35,165 79
1869.....	-----	-----	552 76	552 76
Excess in 1870.....	14,208 47	16,614 11	3,790 45	34,613 03

#### NAVY DEPARTMENT.

Year.	Cost of printing.	Cost of paper.	Cost of binding.	Total.
Secretary's Office, 1870 .....	\$5,200 19	\$4,412 04	\$11,128 37	\$20,740 65
Secretary's Office, 1869 .....	5,455 18	2,760 71	6,123 27	14,237 16
Excess in 1870.....	-----	1,651 33	5,005 10	6,503 49
Ordnance Bureau, 1870.....	\$2,685 71	\$562 43	\$11,350 76	\$14,891 97
Ordnance Bureau, 1869 .....	740 47	135 92	221 07	1,107 76
Excess in 1870.....	1,945 24	426 51	11,129 69	13,784 21

## JUDICIARY.

Year.	Cost of printing.	Cost of paper.	Cost of binding.	Total.
1870.....	\$19,896 08	\$645 75	\$1,540 25	\$22,082 08
1869.....	13,936 14	559 37	1,135 27	16,668 28
Excess in 1870.....	5,959 94	86 38	404 98	5,413 80

## POST OFFICE DEPARTMENT.

The printing and binding for this Department, and especially that for the Money-order Bureau, show a somewhat large increase to meet the wants of the postal service.

## PATENT OFFICE.

The list of patents, claims, and specifications for the Patent Office, are printed in what is denominated the specification department of this office. Until November 1868, this printing was done at a private printing office, and paid for out of the funds of the Patent Office.

The following exhibit shows the amount and expense of work done in this department for the year ending September 30, 1870 :

Amount of printing .....	\$60,357 03
Cost of composition .....	\$50,779 64
Cost of paper .....	2,835 27
	_____
Balance.....	53,614 91
	_____
	6,742 12
	_____

As the cost of press work is not enumerated in the expense above, the balance will be largely reduced by that item, which, owing to the character of the work, is somewhat expensive.

It is admitted, I believe, that this class of printing is a source of much revenue to the Patent Office, and I would suggest the propriety and equity of placing such money to the credit of the fund for public printing.

On the 1st of January last the assistant foreman in charge of the specification department commenced the work of compiling the Patent Office Report from these claims and specifications as they issue, which is a source of much economy, as, with trifling changes, the pages are sent to the stereotype foundry and made ready for the work. This greatly facilitates the issue of this report, as this portion of it is ready for the press at the end of the year, and obviates delay in compilation as heretofore by the Commissioner of Patents. This involves not only a great saving in time, but of money.

The printing and binding for nearly every Department and Bureau in the Government have been increased in a greater or less degree during the last year, as the business wants of the Government keep pace with the progress of the country.

## STEREOTYPE FOUNDRY.

I mentioned in my last annual report that I had, on the 15th of September, 1869, at comparatively small expense, organized a stereotype foundry in connection with this office. At that time the enterprise was an experiment, and I predicted a saving to the Government thereby of at least \$5,000 per annum. It had been in operation one year on the 15th day of last September, and at that date the books show the following satisfactory exhibit:

Value of plates manufactured at trade prices.....	\$18,718 25
Amount expended for labor, material, &c.....	9,525 20
Net saving .....	9,193 05

The foundry has been in charge of Mr. Alexander Elliott, jr., an experienced stereotyper, and its success as a convenient and economical department of the office is in a great degree due to his skillful and judicious management.

## BRANCH PRINTING OFFICE.

Under the law requiring all the printing for the Government to be done at the Government Printing Office, as I stated in my former report, a printing office at the Treasury Department was last year transferred to my superintendence by and at the request of the Secretary of the Treasury. This office has proved a great convenience to that Department, and affords very satisfactory results. It has employed during the past year one assistant foreman, one proof-reader, one maker-up, eight compositors, two pressmen, four feeders of presses, one apprentice, one paper-cutter, two rulers, two feeders of ruling-machines, three folders and stitchers of books, and one laborer. I take pleasure in referring to the excellent management of that office by the assistant foreman in charge, and point to its product as highly satisfactory. The amount of printing placed to its credit:

From September 30, 1869, to September 30, 1870 .....	\$65,916 13
Labor for same.....	820,734 10
Paper consumed.....	18,734 51
	39,468 61

Balance in favor of office.....	26,447 52
---------------------------------	-----------

Without this branch office, during the past year, it would have been difficult much of the time to keep up with the current printing of the Government under the present facilities of the main office.

The Navy Department and Paymaster General's office have each a small printing office. These have been recently transferred to this office as branches, to bring them within the law relating to the public printing. They are no doubt a matter of great convenience to those Departments, and employ each one printer, at the expense of this office. Their economy is yet to be settled under the proper tests.

## ENLARGEMENT OF THE BUILDING.

I desire again to call attention to the imperious necessity of an increase of building accommodation to meet the pressing wants of this office. In view of the facts that the work gradually increases; that all the available room in the present building is occupied; that with these facilities it is not possible to keep up the current printing and binding of the day; that a large amount of binding, as will be made to appear hereafter, is accumulating without the hope of reaching it in years under the present condition of the building; and, in view of the further important fact that the Government has an abundance of vacant land adjoining the present building on which to erect a commodious addition, I would most respectfully urge an early appropriation for the furtherance of this object.

It is but just to the foreman of binding to say that he has worked the bindery, under its existing facilities, up to its fullest capacity during the past year, and yet a large amount of unfinished work has accumulated, which causes disappointment and annoyance to the several Departments by the delay, and encumbers the premises with a large amount of material that should be removed. The following volumes are now deferred in their completion by a want of facilities for the work:

	Volumes.
Messages and documents, abridged, 1869.....	35,000
Land Office Report, 1869.....	12,000
Patent Office Report, 1868.....	40,000
Reserved documents in leather.....	40,000
Globes.....	50,000
Total.....	<u>177,000</u>

To these may be added a large number of volumes for the Library of Congress, the library of the Patent Office, the library of the Observatory, and the library of the Surgeon General's Office, in all numbering some 8,000 volumes of library binding.

It is not possible to find a remedy for these embarrassments and delays except through the erection of a building that would afford adequate room and increased facilities for doing the printing and binding of the Government.

Then, again, a question of safety to the persons engaged in the present building has been raised by the public press, causing much alarm and discontent on the part of the employés, and making it judicious to cause an inspection of the building. I therefore invited Mr. Clark, the Architect of the Capitol Extension, to examine the premises, and I communicate herewith the result of his observation:

ARCHITECT'S OFFICE UNITED STATES CAPITOL EXTENSION,  
Washington, D. C., November 17, 1870.

DEAR SIR: At your request I have examined the Government Printing Office in regard to its stability. I will state that I consider the arrangement you are making

for relieving the upper story of the weight very judicious, and that the loads are so distributed over the floors as to prevent any danger of crushing, and I do not think there is any cause of alarm.

I must state, however, that I have seen the upper stories of that building so loaded that I considered its condition dangerous.

As the state of the public work may again occasion such overcrowding, I consider that prudence demands that measures should be taken to procure additional capacity, and that all heavy loads possible should be placed on the ground floor.

Very respectfully,

EDWARD CLARK.

Hon. A. M. CLAPP,  
*Congressional Printer.*

The arrangement alluded to by Mr. Clark is merely the construction of a temporary out-building, where a portion of the accumulated work can be stored, thus affording partial relief to the main building. This expedient, however, is inconvenient, and not altogether safe to the property stored.

I would most respectfully call the attention of Congress to the fact that certain official documents have recently been published in advance of their transmission to Congress, much to the discomfiture of the Departments to which they relate, and to the scandal of the Government Printing Office. In view of the fact that it seems next to an impossibility now to prevent these occurrences by the strictest vigilance, I would respectfully suggest that the remedy is within the reach of the law-making power. By judicious legislation, with proper penalties, the publication of these documents in advance of their transmission to Congress could, in my judgment, be prohibited and prevented. This would make the offenders responsible for their conduct, and relieve innocent parties from the annoyances that now await them when offenses of this character are committed.

In conclusion, I refer to the several clerks, and the foremen of printing and binding, and their subordinates in this office, with much satisfaction. I am largely indebted to their intelligence, fidelity, and efficiency in the conduct of its affairs for the measure of usefulness that has attended its management during the year.

All of which is respectfully submitted.

A. M. CLAPP,  
*Congressional Printer.*

No. 1.—*Statement showing the cost of the printing, binding, and engraving, executed by order of the Senate and House of Representatives during the year ending on the 30th September, 1870.*

[Of the number of copies printed, those marked (\*) embrace the usual or regular number, (1,600 copies,) which are not included in the general distribution of the public documents.]

Title or subject of document.	Number of pages.	Number of copies.	Cost of printing, dry-pressing, fold-ing, &c.	Cost of paper for printing and maps.	Cost of binding, re-served and extra copies.	Cost of lithograph-ing and engraving.	Total.	Distributed as follows:
